NEW ROSES FOR 1935.

We give below a very fine list of new varieties imported for this season. They are all quite new varieties that have only just been brought into commerce and we think we are fortunate, this season, in being able to give you such a comprehensive list of new roses.

These varieties have been obtained at considerable cost and prices are considerably higher than for other, and perhaps equally good, varieties in our general list. If you do not feel disposed to pay these prices you will find an excellent selection in the general list and these new varieties will undoubtedly be cheaper next season.

There is no reduction for quantity on the new varieties.

Postage and Packing is the same as quoted for in the general list.

FIVE PER CENT. CAN BE DEDUCTED IF CASH IS SENT WITH ORDER.
